Memories
melody for the memories
I want you know all my memories
all night long till the reveries
and you'll flee ... with me

When the road seems to break away
(and the chasm cannot stretch the wait)

Stay beside me, don't let me fall
hold me close

Memories
melody for the memories
don't give up
hold me close to you

Awake and lonely
stepping on by your side
now we will take a ride
lovers with any pride

Me and you
no matter the money
now I don't feel the pain
troubles will burn again

Memories
melody for the memories
I want you know all my memories
all night long till the reveries
and you'll flee ... with me

When the road seems to break away
(and the chasm cannot stretch the wait)

Stay beside me, don't let me fall
hold me close
